

## Raising and Removing Speed Restrictions Following Civil Engineering Work – Trackback Experienced

### COURSE AIMS

This course is intended to reaffirm the understanding of the requirements and procedures for the Raising and Removal of Speed Restrictions.

### LEARNING OBJECTIVES

At the end of this course the delegates will: -

- Be re-appraised of the requirements for Raising and Removing Temporary Speed Restrictions
- Be aware of current standards and specifications
- Be able to identify safety critical and non-critical track defects
- Have the ability to carry out a practical assessment of track geometry, stability and physical characteristics

### COURSE DURATION

Two days.

### PRE-REQUISITES

Delegates should have previous knowledge and experience in the Raising and Removing of Temporary Speed Restrictions.

### PERSONAL PROTECTIVE EQUIPMENT

Not required.

### CERTIFICATION

A Certificate of Attendance will be awarded to the delegate on completion of the course.

**NOTE:** Should a Certificate of Competence be required, please refer to "Trackback" Assessment
